

NEW DUCTLESS AIR HANDLING UNITS

**OPTIMAX
TOP**

OPTIMAX-TOP

The OPTIMAX-TOP range is a system of energy-efficient, ductless compact air handling units designed to meet increasingly demanding requirements for energy savings and environmental protection. Key advantages of this range include the elimination of ductwork within the building and a reduction in both electrical power consumption and thermal energy generation costs.

CONTROL SYSTEMS

The **OPTIMAX-TOP** compact units feature innovative Plug & Play control solutions that provide full control over ventilation and air conditioning processes. The OPTIMAX-TOP-O, -NW and -N air handling units come fully pre-wired with a built-in, pre-configured control panel.

The factory-configured Plug & Play control systems provide:

- ✓ User comfort within the building
- ✓ Monitoring of operating parameters
- ✓ Effective management of operating costs
- ✓ Remote monitoring and maintenance of AHUs
- ✓ Proper protection of the system and its operational components
